

## Spring around the corner – Moth on the offensive

As we go to print, early February 2008, the demand for Moth Shield has already increased substantially confirming that for many insects spring has come early. For those already prepared with their Moth Shield canisters – please ensure that you apply in all those places moth love:-

- Under your rugs
- Under furniture
- In cupboards & drawers
- In storage areas

Normal protective amounts (one straight burst) should suffice to 'discourage' moth from entering your home. If you are short of Moth Shield canisters please call 020 7226 0144 for your pre-spring 12.5% cost reduction.

# Cleansing quality, permanent stain removal

## **Cleansing quality**

In accord with our ongoing planned developments to meet our customers' stringent requirements, the previous phase has indeed confirmed the original test results with a substantial improvement in colour restoration, improved cleanliness and long term fibre soil resistance.

## **Permanent stains - special removal treatments**

Once considered immovable, our ongoing research has provided special structured procedures to remove the following without the use of highly corrosive and dangerous chemicals

- Rust
- Red wine
- Coffee/Tea
- Colour fusion
- Paint
- Ink
- Glue

Removing that unsightly eyesore from your beautiful rug – permanently.
